DETAILED ACTION

Claims 1-22, 33-40, 43-44 were pending. Applicants canceled claims 15-16 and 43-44 in the reply filed 10/13/04. Claims 23-32 and 41-42 were previously canceled. Claims 1-3 and 38-40 have been withdrawn.

Sequence Compliance

Applicants' submission of a substitute specification and amendment to claim 22 to comply with the sequence rules is noted and the application is considered to be in sequence compliance.

Claim Objections

Claims 4, 17-22, 33 and 35 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 112

The affidavit under 37 CFR 1.132 filed 10/13/04 is sufficient to overcome the rejection of claims 18-22 based upon a failure to comply with the written description requirement because there was no indication in the specification as to public availability of the PER.C6 cell line.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686

Art Unit: 1636

F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 5-14, 17, 34, 36, and 37 were rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,492,169. Applicants claim to have submitted a terminal disclaimer over this patent (page 10 of Remarks), however, no such terminal disclaimer can be found in the submitted documents. A voicemail message was left for Bretton Crockett on 12/3/04 regarding this issue. As of 12/28/04 no terminal disclaimer for this application has been received. Therefore, this double patenting rejection is maintained.

Any rejections not repeated in this office action are withdrawn.

Conclusion

No claims are allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1636

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
